2. Management Leadership
3. Strategic Information Technology

Udacity:
1. AI Fundamentals
2. Android Developer Fundamentals
3. Data Analysis Fundamentals
. Programming Fundamentals

⭐ VOLUNTARY WORK

- I volunteered to study and assess the damage caused by the ongoing conflict in Tigray. My role involved conducting research, gathering data, and analyzing the impact of the war on various sectors, including infrastructure, education, healthcare, and livelihoods. This experience deepened my understanding of the socio-economic consequences of conflict and enhanced my research and analytical skills.

⭐ LEADERSHIP EXPERIENCE

- As the ICT Club Representative, I led and organized various club activities, including workshops, seminars, and events to promote technological awareness among students. I was responsible for representing the club's interests to faculty and administration, coordinating projects, and fostering a collaborative environment for students interested in ICT. This role helped me develop leadership, communication, and organizational skills.
